Subject: Proposal No. R-1078 - Meteorological Study

25X1

Gentlemen:

We are proposing herein to conduct a meteorological study for a duration of eight weeks, plus a two-week period for preparation of a final report. This study would be a meteorological system evaluation of an area to be specified by the sponsor. Feasibility of the proposed balloon system will be evaluated in the final report.

The estimated cost of the proposed study is \$10,296. A detailed breakdown of this amount is shown on the enclosed cost schedule. The study period would be for a total of ten weeks including report preparation. It is proposed that the same terms and conditions as contract would apply.

25X1

If any additional information should be desired, we will be happy to be of service to you.

Very truly yours,

25X1

Contract Administrator
